Dear Curt,

Please find the enclosed copies of our church action. I thought that you need to know what has transpired at our church relative to Mom and Dad. We would definitely like to see a scriptural resolution of this matter and fellowship restored. We have begged them to bring their grievances before this church according to the principles of Matthew 18 and I Corinthians, for the slander and public verbal assaults on me, this ministry and many others continue in documents being filled into recent public court records. And God only knows where all else this kind of garbage may be going. I even understand that you may have already received some of these documents.

Sincerely your friend,
